

Inspire Academy of Dance
Safeguarding following 29th July 2024

At Inspire Academy of Dance, we felt it important to hopefully reassure on how seriously we take the safety of all our teachers and students.

At the beginning of class, your teacher will welcome students into the venue. Once the class has begun, if a teacher feels it is appropriate or safer to do so then they may lock the door. Where this isn't the case and the door to the dance class is not locked, it is in general due to the venue having additional security at the entrance such as in a school.

Inspire Academy of Dance are currently in the process of looking in detail at each individual venue we teach in. From this we will be updating our safety procedures and creating an individual 'Venue Guide' for each location. The Venue Guide will include vital information and once complete, we will ensure all our teachers have read and fully understand the Venue Guides that are applicable to them.

We look forward to an exciting new year with Inspire Academy of Dance.
